

Sediment Strainer Drainer Kit

Strainer Drain Kit

Asahi/America Inc., introduces Sediment Strainer Drain Socket kits complete with Omni® Type-27 ball valves for quick and easy cleaning of sediment strainer screens without removing the screen support assembly. The ball valve can be opened to purge the screen area of waste and debris. Valve is supplied loose for piping waste pipe to desired location.

Standard Features (1/2" - 2")

- Kits available for 1/2" - 2" PVC Sediment Strainers
- 1/2" & 3/4" strainers use 1/2" socket Omni® Type-27
- 1" - 2" strainers use 1" socket Omni® Type-27
- Supplied as a kit, includes new screen support housing, split ring, union nut, end connector and PVC EPDM socket Omni® Type-27 ball valve
- PVC SCH80 pipe not supplied
